STOREFRONT APPLICATION REVIEW

**DP Earth Holdings
Pet's Life Naturally
523 8th Avenue West, Palmetto, FL**

April 7, 2009 Applicant delivered an outdated (fiscal year 2008) Storefront Grant Application to City Hall. Application was not complete.

CRA Executive Director attempted several calls to Ms. Castaneda. No return calls were received by the CRA.

CRA Executive Director spoke with Ms. Castaneda at the "Meet & Greet" of the Palmetto Business Advisory Group kick off on May 21, 2009 and offered assistance to Ms. Castaneda at that time.

On June 9, 2009, Mayor Bryant inquired as to the status of the application. Upon that request, a letter was sent to the applicant's home address (copy attached). No reply was received by CRA.

On June 29, 2009 another package was received containing a letter from Daniel Woodson and pages 5 (Applicant Information) & 6 (Satisfaction of Grant Criteria) from the 2009 Storefront Grant Application.

On July 14, 2009 Ms. Castaneda attended the CRA Advisory Board meeting. Ms. Castaneda provided explanation of events leading to her appeal to the Advisory Board to reconsider her application.

On July 15, 2009 CRA staff spoke with Ms. Castaneda to gather additional information about the improvements on the property. CRA staff instructed Ms. Castaneda to bring all documentation available.

On July 23, 2009, Ms. Castaneda delivered a list of items completed on the building along with a copy of the deed. The information was delivered to City Hall and forwarded to the CRA Office.

Due to CRA staff being out of Office until August 13, 2009, no action was taken on package received above.

Contact made with Ms. Castaneda on 8-31-09. Left message and call was returned to CRA September 9, 2009 at which time, appointment on September 15, 2009 was set with Ms. Castaneda to meet at the CRA office to review all documents submitted and determine what other information was needed to complete a review.

Mr. Woodson and Ms. Castaneda left with a list of items need. Those items were received in the office Friday, September 25, 2009.

Dear Tanya,

When we originally applied for the CRA Grant Program were already through choosing the contractors. We looked at multiple offers for each and made sure the jobs were competitively priced. We did not keep the proposals that we did not go with, just the final quote. We were close to completion decision wise, so we were not able to follow the CRA outline in all respects.

I know you have been a great help in getting the word to us about the CRA and I wish we would have checked with the City about programs available like this before we began the project. The project took 90 days from the closing to almost completion (we are still finalizing a fountain for the front of the building). The building was completely stripped down to concrete block inside. The floor, roof, windows and doors were replaced or recoated.

We are submitting invoices from improvements that are noticeable from the street as outlined. I am not sure what does and does not qualify. The main improvements were:

Tearing out old air-conditioning system that was barley hanging out of the side of the building and the air handler attached to the side of the building. These covers were made of rotted plywood and had the building exposed to the elements for years while the building sat vacant. We purchased new units and had them installed on the roof.

We had the roof re-done including the rusty caps that were leeching down the building.

We put in new Doors and windows in the entire building.

We resurfaced the parking lot and had the building brought up to ADA standards with ramps and railing out side the door.

We landscaped the existing beds and will finish the front landscape as soon as the fountain quotes are in.

We would like to thank you for considering these upgrades to the building for the CRA. We have enjoyed being part of the Palmetto business community and look forward to the years ahead.

Best regards,

A handwritten signature in black ink that reads "Daniel Woodson". The signature is fluid and cursive, with the first name "Daniel" being more prominent than the last name "Woodson".

Subject: outside changes made to the building

- 1.- Removed and replaced windows and doors
- 2.- Tear down the front glass block wall, replace with 2 esthetic looking windows.
- 3.- Removed old air conditioning from west side of the wall & fill holes with block.
- 4.- Purchased two new units of air conditioning and installed them on the roof.
- 5.- Place a new gutter to alleviate the problem of water erupting away the parking lot.
- 6.- Roof was redone including the rusty caps that were leeching down the building.
- 7.- resurfaced the parking lot, re-paint the stripes and put new handicap signage.
- 8.- Install new concrete ramps leading in and out of the store to bring the building up to ADA code. Install railing for safety concern in front of the building.
- 9.- Landscape in progress.
- 10.- Fountain in progress
- 11.- Awnings in progress (for back door and front of the building)
- 12.- Installed Security lights and Camera on the outside of the building.
- 13.- Stucco the outside walls and painted.
- 14.- Dog house in progress. (to cover the fountain pomp)
- 15.- The back west wall was a closet on the outside of the building, it was eliminated and replace with a ADA door and ramp.

The building was completely dilapidated when we purchased it.

Re: Pet's Life Naturally Fountain

Proposal:

Construct wet wall water feature utilizing existing planter base for basin, existing wall for tile installation. Planter basin to be excavated, pour concrete base and equipment pad, waterproof interior of basin with quartz based plaster color tbd, all plumbing to be run to equipment location; vertical wall to be cut out (notched for feed pipe 2" water descent), wall to be pressure cleaned, wire lathed floated with wall float proprietary waterproofing base material, tile to be installed using C-Cure M-Flex Strata 914 Professional grade polymer modified thin set, grouted with C-Cure Cureperfect 930 color grout system. Install 6' water - sheet fall in wall approximately 8' above planter to ooze water creating "wet wall" effect.

Equipment: 1-Pentair 75 gpm Specialty Waterfall Pump
1-Pentair 50 CF Cartridge filter
1-Rainbow 320 Chlorine Tablet Feeder
1-Intermatic Timer

Electrical hook-up to existing included, all permitting and inspections.
