POINT PAPER
DOWNTOWN CORE PARKING STUDY

OCTOBER 13, 2009

ISSUE: There is a need to increase parking in the core area of Downtown Palmetto

BACKGROUND: CRA budgeted \$10,000.00 in 690-559-3101 Consulting Services for Land Development Code work. The previous CRA Executive Director and the previous City Planner were going to initiate the project and then utilize the funds for final review. The project never came to fruition.

The need to increase available parking in the core area of Downtown which is in the CRA District requires study and funds allocated for the LDC could be used to pay for that portion the study that falls within the CRA District

ALTERNATIVES:

1. Recommend to CRA Board approve the \$10,000.00 allocated for LDC to be used for parking study in the Downtown Core area. The amount approved will be whatever percentage of the study applies to the CRA District not to exceed \$10,000.00
2. Do nothing

RECOMMENDATION: Alternative #1

BUDGET IMPACT: None – Finance needs to be notified that the allocation needs to reflect the allocation of \$10,000 to Core Downtown Parking Study within the same budget line.
