## **POINT PAPER**

### **RESOLUTION 08-37 INVESTMENT POLICY REVISION**

**Problem:** The city's current Investment Policy (Res. 08-25) limits to Certificates of Deposits and other interest bearing cash deposits are too stringent.

**Background:**

In Resolution 08-25, passed October 20, 2008, the city's Investment Policy Section E limits Interest Bearing Time Deposit or Saving Accounts to 25% of available investment funds. This category is for CDs and interest bearing cash deposit accounts. These accounts are required by F.S. Section 280, to be deposited in a qualified public depository (QPD), as approved by the Florida Department of Financial Services. This statute requires a QPD to provide full collateralization of public fund deposits and thus, one of the safest investment instruments available.

The existing policy allows 100% investment in SBA, which is not fully collateralized, while it limits the fully collateralized CDs to 25%. Therefore, the Investment Committee requests these limits to the portfolio composition, stated in Section E, be increased, in total, from 25% to 100% and limits on individual issuers from 15% to 50%. These changes are listed on Page 10 of 18 and are the only changes to the policy.

**Alternatives:**

1. Do nothing.
2. Approve Resolution #08-37 revising the Investment Policy (Res. 08-25) as attached.

**Recommendation:** Staff recommends alternative #2, Approve Resolution #08-37 (Revised)

**Budget Impact:** None

**A RESOLUTION OF THE CITY COMMISSION OF THE  
CITY OF PALMETTO, FLORIDA, TO ESTABLISH POLICY  
SETTING GUIDELINES FOR THE INVESTING OF PUBLIC  
FUNDS FOR PURPOSES OF ENSURING THE FINANCIAL  
STABILITY OF THE CITY**

**Whereas**, the City Commission, in and for the City of Palmetto, Florida, hereinafter referred to as "Commission", endorses sound financial policies and practices; and

**Whereas**, the Commission has determined that an Investment Policy tailored to the particular needs of the City is the most responsible way to provide guidelines for the investing and management of the public funds of the City and to maintain the financial strength; and

**Whereas**, it is essential that the Commission establish an Investment Policy to provide guidelines for the (1) safety of principal, (2) maintenance of liquidity and, (3) the return on investment.

**NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF PALMETTO:**

**SECTION 1. FINDING OF FACT**

The above-referenced "WHEREAS" clauses are adopted herein as findings of fact.

**SECTION 2. PURPOSE**

The purpose of this policy is to set forth the investment objectives and parameters for the management of public funds of the City of Palmetto, Florida (hereinafter "City"). These policies are designed to ensure the prudent management of public funds, the availability of operating and capital funds when needed and an investment return competitive with comparable funds and financial market indices.

**SECTION 3. SCOPE**

In accordance with Section 218.415, Florida Statutes, this investment policy applies to the investment of public funds in excess of the amounts needed to meet current expenses, which includes cash and investment balances of the following funds:

- General Fund
- Special Revenue Funds

- Enterprise Funds
- Permanent Funds
- Trust and Agency Funds

This policy does not apply to the investment of principal, interest, reserve, construction, capitalized interest, redemption or escrow accounts created by ordinance or resolution pursuant to the issuance of bonds where the investments are held by an authorized depository. This policy does not apply to funds not under investment control of the City; such as Pension Plans.

#### **SECTION 4. INVESTMENT OBJECTIVES**

##### **Safety of Principal**

The foremost objective of this investment program is the safety of the principal of those funds within the portfolios. Investment transactions shall seek to keep capital losses to a minimum, whether they are from securities defaults or erosion of market value. To attain this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

From time to time, securities may be purchased at a premium or traded for other securities to improve yield, maturity or credit risk. For these transactions, a loss may be incurred for accounting purposes to achieve optimal investment return, provided any of the following occurs with respect to the replacement security:

- A. The yield has been increased, or
- B. The duration has been reduced or lengthened, or
- C. The quality of the investment has been improved
- D. The liquidity of the investment has been improved.

##### **Maintenance of Liquidity**

The second highest priority is liquidity of funds. The portfolios shall be managed in such a manner that funds are available to meet reasonably anticipated cash flow requirements in an orderly manner.

##### **Return on Investment**

The third highest priority is income. Investment portfolios shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of least importance compared to the safety and liquidity objectives described above. The core of investments is limited to

relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

#### **SECTION 5. DELEGATION OF AUTHORITY**

The responsibility for providing oversight and direction in regard to the management of the investment program resides with the City's Investment Committee. The Investment Committee shall be established consisting of the City Clerk, the Deputy Clerk – Finance and the Financial Advisor. One additional person may be appointed by the Mayor and ratified by City Commission. The Investment Committee shall meet at least quarterly, prior to the City Commission budget review meeting, to review the City's investment strategy.

The management responsibility for all City funds in the investment program and investment transactions is delegated to the City Clerk, or designee. The City Clerk, or designee, shall establish written procedures for the operation of the investment portfolio and a system of internal accounting and administrative controls to regulate the activities of employees. Such written procedures shall require ratification by City Commission. The City may retain an investment manager to assist in managing some of the City's portfolios with City Commission approval. Such investment manager must be registered under the Investment Advisors Act of 1940.

#### **SECTION 6. STANDARDS OF PRUDENCE**

The standard of prudence to be used by investment officials shall be the "Prudent Person" standard and shall be applied in the context of managing the overall investment program. The City Clerk, or designee, acting in accordance with written procedures and this Investment Policy and exercising due diligence shall be relieved of any personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectation are reported to the City Clerk and the Investment Committee in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy. The Prudent Person standard is as follows:

Investments shall be made with judgement and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived from the investment.

While the standard of prudence to be used by the City's staff is the Prudent Person standard, any person or firm hired or retained to invest, monitor, or advise concerning these assets shall be held to the higher standard of "Prudent Expert". The standard shall be that in investing and reinvesting moneys and in acquiring, retaining, managing, and disposing of investments of these funds, the consultant

shall exercise: the judgement, care, skill, prudence, and diligence under the circumstances then prevailing, which persons of prudence, discretion, and intelligence, acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like aims by diversifying the investments of the funds, so as to minimize the risk, considering the probable income as well as the probable safety of their capital.

#### **SECTION 7. ETHICS AND CONFLICTS OF INTEREST**

The City's staff involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Also, employees involved in the investment process shall disclose to the City any material financial interests in financial institutions that conduct business with the City, and they shall further disclose any material personal financial/investment positions that could be related to the performance of the City's investment program.

#### **SECTION 8. INTERNAL CONTROLS AND INVESTMENT PROCEDURES**

The City Clerk, or designee, shall establish a system of internal controls and operational procedures that are maintained in writing. The internal controls should be designed to prevent losses of funds, which might arise from fraud, employee error, and misrepresentation by third parties, or imprudent actions by employees. No person may engage in an investment transaction except as authorized under the terms of this policy.

Independent auditors as a normal part of the annual financial audit to the City shall conduct a review of the system of internal controls to ensure compliance with policies and procedures.

#### **SECTION 9. CONTINUING EDUCATION**

The City Clerk, or designee, responsible for making investment decisions shall annually complete eight (8) hours of continuing education in subjects or courses of study related to investment practices and products.

#### **SECTION 10. AUTHORIZED INVESTMENT INSTITUTIONS AND DEALERS**

The City Clerk, or designee, shall maintain a list of financial institutions and broker/dealers that are approved for investment purposes ("Qualified Institutions"). Only firms meeting one of the following requirements shall be eligible to serve as Qualified Institutions:

- C. Qualified Public Depositories may provide the services of a securities dealer through a Section 20 subsidiary of the financial institution.
- D. Direct issuers of commercial paper and bankers' acceptances.

#### **SECTION 11. MATURITY AND LIQUIDITY REQUIREMENTS**

To the extent possible, an attempt will be made to match investment maturities with known cash needs and anticipated cash flow requirements. Investment maturities shall not exceed five (5) years.

#### **SECTION 12. COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS**

After the City Clerk, or designee, or the investment advisor has determined the approximate maturity date based on cash flow needs and market conditions and has analyzed and selected one or more optimal types of investments, a minimum of three (3) qualified banks and/or approved broker/dealers must be contacted and asked to provide bids/offers on investments in question. Bids/offers will be held in confidence until the bid/offer deemed to best meet the investment objectives is determined and selected.

However, if obtaining bids/offers are not feasible and appropriate, investments may be purchased utilizing the comparison to current market price method on an

exception basis. Acceptable current market price providers include, but are not limited to:

- A. Telerate Information System
- B. Bloomberg Information Systems
- C. Wall Street Journal or a comparable nationally recognized financial publication providing daily market pricing
- D. Daily market pricing provided by the City's custodian or their correspondent institutions

Examples of when this method may be used include:

- A. When time constraints due to unusual circumstances preclude the use of the competitive bidding process
- B. When no active market exists for the issue being traded due to the age or depth of the issue
- C. When a security is unique to a single dealer, for example, a private placement
- D. When the transaction involves new issues or issues in the "when issued" market
- E. Small investments under \$50,000 in size.

Overnight sweep investments will not be bid, but may be placed with the City's depository bank relating to the demand account for which the repurchase agreement was purchased.

### **SECTION 13. AUTHORIZED INVESTMENTS AND PORTFOLIO COMPOSITION**

Investments should be made subject to the cash flow needs and such cash flows are subject to revisions as market conditions and the City's needs change. However, when the invested funds are needed in whole or in part for the purpose originally intended or for more optimal investments, the City Clerk, or designee, or the investment advisor may sell the investment at the then-prevailing market price and place the proceeds into the proper account.

Investments not listed in this policy are prohibited.

The following are the investment requirements and allocation limits on security types, issuers, and maturities, as established by the City. The City Clerk, or designee, and the Investment Committee shall have the option to further restrict investment percentages from time to time based on market conditions, risk and diversification investment strategies. The percentage allocation requirements for investment types and issuers are calculated based on the market value of each investment.
