OUTDOOR SECURITY LIGHT AGREEMENT

Outdoor lights are for year-round outdoor security lighting of yards, walkways and other similar areas. Lights to be served hereunder shall be at locations which are easily and economically accessible to Company equipment and personnel for construction and maintenance. Company-owned luminaries normally will be mounted on Company's existing distribution poles and served from existing overhead wires. The Company will provide one span of secondary conductor from existing secondary facilities to a Company-owned light at the Company's expense. When requested by the Customer, and at the option of the Company, additional spans of wire or additional poles or underground conductors may be installed by the Company upon agreement by the Customer to use the facilities for a minimum of three years.

The Company hereby agrees to supply and the Customer hereby agrees to receive and pay for all power, energy, and service required for the Outdoor Security Lights as listed on the request form and located at the address shown, in accordance with the Company's applicable Rate Schedule OL-1 and General Rules and Regulations for Electric Service, or any effective superseding and applicable rate schedule and rules and regulations in effect according to the Company's approved tariff for the terms of service specified below, and thereafter until canceled by either party.

The Customer hereby grants the Company the right to enter upon, occupy, and use such areas of the Customer's premises as are necessary to enable the Company to construct, install, operate, maintain, and repair said electric facilities which are Company-owned.

The Company, while exercising reasonable diligence at all times to furnish service hereunder, does not guarantee continuous lighting and will not be liable for damages for any interruption, deficiency or failure of service and reserves the right to interrupt service at any time for necessary repairs to lines or equipment.

If the Customer terminates service before the expiration of the initial term of the agreement, the Company may require reimbursement for the total expenditures made to provide such service, plus the cost of removal of the facilities installed less the salvage value thereof and less credit for all monthly payments made for Company-owned facilities.

At the Customer's request, the Company will upgrade to a higher level of illumination without a service charge when the changes are consistent with good engineering practices. The Customer will pay the Company the net costs incurred in making other lamp size changes. In all cases where luminaries are replaced, the Customer will sign a new service agreement. Billing on the rate for the new luminaire or lamp size will begin as of the next regular billing date. A luminaire may be relocated at the Customer's request upon payment by the Customer of the cost of removal and reinstallation.

The Company will not be required to install equipment at any location where the service may be objectionable to others. If it is found after installation that the light is objectionable, the Company may terminate the service without obligation or liability.

When the Company relocates or removes its facilities to comply with governmental requirements, or for any other reason, either the Company or the Customer shall have the right, upon written notice, to discontinue service hereunder without obligation or liability.

TERM OF SERVICE (Check One): _____ 1 Year _____ 3 Years

I (WE) agree to the terms and conditions above. I understand that the listed prices do not include tax, franchise, fuel capacity, conservation, & environmental charges.
