**REQUESTED CHANGE:**

This is a request from the new owners of Sanctuary Cove to amend the existing development order to eliminate the conditions of approval requiring the Project to be developed in compliance with the City's Attainable Housing Ordinance and eliminate the requirement of constructing a boardwalk along the perimeter of the property fronting on the Manatee River that would be tied in with the proposed Manatee Riverwalk. In addition, this request would amend the Planned Development (PD) General Development Plan (GDP) to eliminate reference of "Future city of Palmetto Boardwalk Pending Permitting Approval".

**BACKGROUND:**

- A General Development Plan for Sanctuary Cove consisting of a mix of 916 multi-family and single family units was first approved by the City Commission on September 10, 2005 by Ordinance 05-863.

- A minor modification was approved on June 19, 2006 which increased the total number of multi-family and single family units to 941, less than the 1,189 units approved by DCA.
- On July 24, 2006, the City Commission approved the Attainable Housing Ordinance 06-892 to promote the City's goal of achieving a specific number of housing units within the City that are affordable to households earning between 80% and 120% of the median income. (The median household income in Palmetto in 2000 was \$34,093 compared to \$41,994 for the nation - 2000 Census; The estimated median household income in Palmetto for 2008 was \$40,645 – compared to \$47,778 in Florida – Citydata.com);
- In October of 2006, a revised GDP was submitted that included 2 additional parcels in the overall plan (the 8.44 acre BOMA parcel and the 1.15 acre Rogers parcel) resulting in an increase in the total number of multifamily and single family units to 1,026.

## SUMMARY

The original Sanctuary Cove rezoning application was approved in 2005, prior to the adoption of the Attainable Housing Ordinance on July 24, 2006. The development order and GDP for Sanctuary Cove was amended in 2008 when the requirement for compliance with the Attainable Housing ordinance was included. At that time, the applicant was advised to abide by the provisions of Chapter 17, Article III, Division 1, Sections 17-47 through 17-97 of the City of Palmetto Code of Ordinances, pertaining to the provision of attainable housing. The applicant intended to comply with the ordinance by some method (Section 17-54; payment in lieu) other than constructing attainable housing units on-site.

Economic conditions have changed significantly over the past two years including a slowdown in new construction. The applicant's petition warrants consideration in light of the following developments which have occurred since the GDP adoption in 2008.

### Attainable Housing

The City conducted a study in January, 2010 which indicated that there are a substantial number of older homes in the City, and there is a stable housing market in the attainable housing range of assessed values.

*Based upon available data, it appears that 79% of the current single-family housing stock in the City could qualify as attainable housing based on current assessed value. Even with the 220 units projected to be constructed within the next five years, the percentage of housing within the attainable category is not expected to rise beyond 15% prior to 2015. For that reason, the finding of this Update is that the City is in a "voluntary" period.*

Existing Home Values Based on Manatee County Property Appraisers' Just Value from the Florida Housing Data Clearinghouse data for 2008 for Palmetto shows the following:

- Single Family Home, average just value: \$183,617.
- Statewide, the average just value of a single family home in Florida: \$203,634.

- Mobile Home, average just value: \$54,061.
- Condominium, average just value: \$231,267.

#### Riverwalk

Staff contacted Dale E Weidemiller, Project Administrator of Artisan Avenue and River Walk Projects in Bradenton who indicated that planning for the river walk is now limited to areas within the Central CRA of Bradenton and does not include the City of Palmetto.

The project of Sanctuary Cove is designed with a guardhouse along Sanctuary Cove Way and a proposed lift over weir/water at the end of the north-south public road along the west side of the project (shown as Road D on the site plan). The overall private design of this project does not lend itself for the public to have direct access to the waterfront.
